Utility	Category	Date Issued	Late Response Issue Date	Notes
Telford & Wrekin Council	Council			
Vtesse Networks Ltd	Telecom	Not ordered as requested*		

\*You have ordered a report without Interoute Vtesse Ltd plans at your request. This service does not include a search of Interoute Vtesse Ltd for their telecommunications fibre plant due to extensive research which has shown their equipment is present in less than 1% of searches. An additional search of Interoute Vtesse Ltd is available on request from £60 + VAT for areas of 250m radius or less. The rate for searches for sites larger than 250m radius are available upon request from Landmark Customer Services.

**Not affected utilities**

We have received a not affected/no plant present response from the following companies.

**Checked and Validated By Chrissy Elliott****Date 10 March 2014**

*Please Note: This utility report service does not include a search of Mobile Broadband Network Ltd (MBNL) plant which is managed by Ericsson Ltd. Ericsson Ltd has been instructed by MBNL to conduct Plant (apparatus) searches on their behalf which includes the H3G UK Ltd and EE Limited (incl. TMobile and Orange sites) Network services, these searches were formerly undertaken by May Gurney. EE Ltd does not install either power or telecommunications cables within the highway; instead, the underground cables serving their sites will belong to and will be recorded by the relevant supplier namely BT or Virgin Media for communications cables and the regional electricity supplier for power. All such underground cables from third party suppliers, will terminate within equipment cabins owned by EE Ltd. These utilities will always be searched as part of this report. Ericsson Ltd believe that there is no real term risk of cable strike as EE Ltd does not own power or communications cables deployed within the highway, save for the small link between an equipment cabin and the adjoining lamp post or similar installation housing the antenna and or dish installations and state that any such installations are clearly visible. An additional search of MBNL is available on request from Landmark Customer Services.*
